Welcome Back

I hope everyone had a relaxing and enjoyable break and had the opportunity to spend quality time with family and friends. It has been wonderful to see our students return with smiling faces, ready to reconnect with their classmates, teachers and our school community. We are looking forward to another fantastic term of learning and growth, where every student is encouraged and supported to achieve their personal best. Thank you to our families for your ongoing support and partnership—it plays such an important role in helping our students thrive.

Welcome New Families

A very warm welcome to Mason, Cooper and Jonathan and their families. We are delighted that they have joined the Langley Primary School community. Starting at a new school is an exciting milestone, and our students have already made a positive start as they learn our routines, build new friendships and become familiar with life at Langley. Our staff and students have worked hard to ensure they feel welcomed, included and supported from their very first day. We are proud to be part of their learning journey and look forward to watching each of them grow in confidence, develop new skills and become valued members of our school community.

Student Support Group (SSG) Meetings

Our Student Support Group (SSG) meetings will be held during Week 4. Families are encouraged to make a time to meet with staff to discuss their child's learning goals, current progress and future priorities.

SSG meetings are a valuable opportunity for families, students and staff to work together to ensure we are all supporting the same learning and wellbeing goals. By sharing observations, celebrating achievements and identifying next steps, we can build a consistent approach that helps every child experience success both academically and socially.

Book Week Dress-Up Day

This year we will be celebrating Book Week during 22–28 August 2026, a highlight of the week is our annual Book Week Dress-Up Day taking place on Monday 24 August.

Staff and students are invited to come to school dressed as their favourite book character or in a costume inspired by a much-loved story. Costumes do not need to be elaborate or expensive—simple, homemade ideas are always encouraged!

Book Week is a wonderful opportunity to celebrate the joy of reading, share favourite books and inspire a lifelong love of literature. We look forward to seeing the creativity and enthusiasm of our students as we celebrate the magic of books together.

Playgroup and Homeschool Discovery Days

Our Playgroup and Homeschool Discovery Days continue this term and provide a wonderful opportunity for preschool-aged children and homeschooled students to experience learning at Langley Primary School.

These sessions are designed to build confidence, foster friendships and provide engaging, hands-on learning experiences in a welcoming school environment. They also allow children and their families to become familiar with our staff, classrooms and school routines, helping to create a smooth and positive transition to school.

If you know of families with preschool-aged children or those currently homeschooling who may be interested, we warmly encourage them to come along and experience what makes Langley Primary School such a special place to learn.

School Council

Our School Council plays an important role in supporting the ongoing success of Langley Primary School.

School Council members share a common goal of providing the best possible learning environment for every student. Their work helps ensure that our resources are used effectively and that the school continues to grow and meet the needs of our community. We currently have vacancies on School Council and warmly encourage any parents or community members who would like to become more involved in the school to consider joining. Being a member of School Council is a rewarding way to contribute to the direction of our school, have a voice in important decisions and support positive outcomes for all students. If you are interested in becoming a School Councillor or would like to find out more about the role, please contact the school office.

Celebrating 100 Days of School

This week our Foundation students celebrate the exciting milestone of 100 Days of School! Throughout the week, all students will participate in a range of fun, hands-on activities based around the number 100. They will explore counting, sorting, measuring, creating and problem-solving through engaging learning experiences that celebrate just how much they have grown and learned over their first 100 days of school.

The celebration is a wonderful opportunity to recognise our Foundation students' achievements, build excitement for learning and reflect on the friendships, confidence and new skills they have developed since starting school. We look forward to sharing this special milestone with our students and celebrating all they have accomplished.

Hope and Action Day

On Wednesday 9 September, students will travel to Bendigo to participate in Hope and Action Day. This special event brings students together to explore themes of hope, resilience, kindness and making a positive difference in their communities.

Throughout the day, students will participate in a range of engaging activities, hear from inspiring guest speakers and work collaboratively with students from other schools. Hope and Action Day encourages young people to recognise that even small acts of kindness and service can have a meaningful impact on the lives of others. We look forward to our students representing Langley Primary School with pride and bringing back new ideas to strengthen our own school community.

Sporting Schools – Lawn Bowls

We are excited to announce that Langley Primary School has once again been successful in securing Sporting Schools funding for Term 3.

Science at Langley

We are pleased to continue our partnership with the Bendigo Science and Discovery Centre throughout Term 3, providing our students with engaging, hands-on science learning experiences. These sessions encourage students to explore, question and investigate the world around them while developing important skills in scientific thinking, problem-solving and collaboration. Working alongside the Science and Discovery Centre allows our students to experience exciting experiments and interactive activities that bring science to life. We look forward to another term of inspiring curiosity, creativity and a love of STEM learning across the school.
